## Environmental Health Sciences Applicants

### Scholarships Available for Risk Science

For those applicants identifying the Risk Science subplan within Environmental Health Sciences as their projected major, scholarship money is available. Funding decisions will be communicated no later than March 15, 2009 and will be made using the following criteria: statement of purpose, undergraduate GPA, and recommendation letters. Funds available for this program are \$50,000 and will be distributed based on criteria and number of qualified applicants.
